

Cut off excess white paper and fold at center.
Glue or laminate to keep the front and back together.

Black holes. Exploding stars.
Ancient galaxies. The Hubble
Space Telescope is unraveling
the mysteries of the universe
one by one.

The Amazing Space Web site
showcases Hubble's incredible
pictures, startling space facts,
vivid graphic organizers, and
out-of-this-world activities.

In the classroom or at home,
let your imagination roam the
far reaches of the universe.

Explore Amazing Space.
